

DISTRICT #20

Dear Friends,

The Special Needs Committee in District #20 believes that every person with a desire to quit drinking should be able to participate fully in meetings of Alcoholics Anonymous. In order to help the fellowship eliminate physical and environmental barriers for individuals with disabilities, we have created a document to share with all A.A. groups. This document will provide all groups in Area #75 with a tool to assess the environment in which their meetings are held and to help plan the changes necessary to ensure accessibility for all people.

Please take the time to review the attached document with the membership at your location. Any barrier that can be removed makes it easier for a person with a disability to join in recovery.

Yours in Service,

Michael N. [redacted] Chair
Special Needs Committee
(608) 873-0470
